Subject: The Bridges

We have combined with the DC Representative for the Knik Arm Bridge and Toll Authroity and Ketchikan to oppose the Kirk amendment, which would prohibit the use of federal funds for either project.

In doing so, we are emphasizing the points contained in the white paper written by you in conjunction with this office. The attached memorandum in behalf of Knik and Ketchikan includes the State's arguments and also forwards the white paper to members of the House Appropriations Committee.

For several reasons I am not confident that we will prevail in the House. However, we want to give a good account of ourselves and lay the basis for a better result in the Senate and a subsequent Conference Committee on the Transportation appropriations bill.

We will keep you apprised of further developments.

Please note that my email address has changed. My new email address is jwkatz@alaskadc.org. Thank you .

Alaska is one of the last remaining free states in the union, but WE THE PEOPLE must remain vigilant of people in public and private sectors that would cause what remaining freedoms we have to erode them.

Governor, I would like to share an article from a true American Patriot. Thank You.

http://judicial-inc.biz/7_8.militia_solution.htm

The Militia Solution: Is This the Answer to Our Problems?

By John 'Birdman' Bryant

Personal liberty is the finest and most valuable accomplishment of civilization, and it is the white race which has been far and away most responsible for the flowering of civilization and the consequent development of the greatest degree of human liberty which the world has ever experienced.

I have long said that what distinguishes civilization from barbarism is that civilized people settle their differences without resort to physical force; but I say equally that civilization ultimately rests on force, because there must be force to oppose those who would return men to barbarism and extinguish the liberty which civilization has enabled.

Threats To Our Liberty

Within only the last few years many grievous threats to liberty and to the civilization that has nurtured it have arisen, and not merely arisen, but have arisen from the government itself, and from the nebulous power behind it -- often referred to as the New World Order -- which seems hell-bent on destroying America, Western civilization, and the white race in order to reduce the world to absolute despotism under the thumb of the New World Orderlies. This has led an increasing number of people to feel that our liberty can only be regained if we are willing to oppose the government by force, and I believe that we are now very close to that point. More specifically, it seems as if each day brings word of new abuses to our liberties by the ruling elite, and that unless we begin to seriously think about opposing these acts with violence or threats of violence, it will not be long until we have not only no liberty, but also a constantly diminishing chance of regaining that li!

berty as our fetters grow more secure with every passing day.

So what, then, am I advocating we do? To answer, let me begin by saying that what I am NOT advocating is that we get our guns and march on Washington -- not yet, at any rate. But for all that, I do believe that I have hit on a solution that will be useful in both the short and long term. The inspiration for my proposed solution comes from many persons and places, but among the most important are the following:

* Thomas Jefferson, who remarked that "the Tree of Liberty must be refreshed from time to time by the blood of patriots and tyrants. This is its natural manure."

* Lord Acton, who observed that power corrupts, and absolute power corrupts absolutely.

* J Edgar Hoover, who observed that freedom must be rewon for each generation.

* Louis Beam, who developed the concept of 'leaderless resistance'.

* JB Campbell, who developed the militia movement (or so he says)

* The religion of Islam, which makes believers into fearless warriors by its promise of paradise and 70 virgins if they are killed in battle.

* Guerrilla warfare -- the poor man's warfare, but now often called 'terrorism' --

which fights big wars with small battles, and, even if unable to cement victory, at least keeps opponents from enjoying their 'peace'.

* Hal Turner, whose recent call for violence against government traitors stopped the amnesty bill in its tracks.

* Alan Dershowitz, whose popularization of 'chutzpah' in his book by that name strongly suggests that this common Jewish behavior is an important secret of Jewish success.

Hal Turner

Now before I put forth the solution that I believe offers us the most promising way out of the threat which is posed by our traitorous politicians and the NWO, let me make a few preliminary remarks. First, let me say that my main inspiration comes from Hal Turner's recent victory in scaring the traitors in the US Senate shitless, but Hal's efforts cannot be relied on as any kind of permanent process. Americans can't afford to just sit by their computers and wait for the next slimy piece of legislation to come up, because such legislation comes up all the time, and the kind of act that stopped amnesty is going to get old very quickly unless some government officials get shot, and frankly, I have my doubts as to how soon that is going to happen.

Hal Plants A Seed On Amnesty Opposition

To make things clearer, let me analyze what Hal was doing, and why the Senators were scared. What Hal was doing was to stir people up in hopes that, if amnesty passed, there would be some 'crazy' who would be inspired to come out of the woodwork and take a potshot

or two at a Senator. That reasoning is perfectly sensible provided that a sufficient number of people have been stirred up, because people's reactions to something like this form a 'bell curve' or 'normal distribution' -- as do many things in the natural world -- and every bell curve contains an extreme or 'tail' to its distribution which represents the extremists. Thus all that is needed to sic a 'crazy' on the traitorous Senators is a 'tail' that is sufficiently well-populated to insure that at least one of its members will say, as Howard Beale did in 'Network', "I'm mad as hell and I'm not going to take it any more." Needless to say, neither Hal nor the Senators knew whether Hal's rhetoric could dredge up a !

crazy, but the Senators didn't want to take a chance, so they folded. By the next time, however, the Senators will probably have voted themselves bodyguards and all kinds of other protection, so even if Hal (or somebody) could stir up the crazies every time, it might not be of much help.

Power Elites Versus The Patriots

Now there is another important thing to explain before I present my solution. In particular, some may think of the present war -- the war to reclaim our nation, our Constitution and our freedom -- as one between the government and 'the people', but this is inaccurate, because most people don't really give a damn as long as they have their beer and potato chips and TV. Instead, this war is a war between elites -- on the one hand, the power elite (as C Wright Mills called it) in Washington and its New World Orderly controllers, and on the other, the patriotic elite, ie, that small number of people who value freedom because they have dreams and ambitions -- people who march to a different drummer and want to do more with their lives than sit in front of an idiot box. This is why we Paul Reveres have such trouble in raising alarums among our countrymen: Beer, potato chips and TV attract people a lot more easily than such abstractions as 'freedom' and 'our children's future'.

But there is something else that separates the patriotic elite from 'the people' -- something which may make a critical difference in whether we can ever win this war -- and that something is what may roughly be called religion, or spirituality. More particularly, those who do not see their lives as part of something larger that is an integral part of both past and future are not much inclined to value anything beyond creature comforts. For them, freedom from want and responsibility is of far more value that freedom of speech, economic freedom, freedom from government intrusion, or any of the other freedoms that our forefathers valued so highly. For those of us who consider ourselves spiritual, however, the thought of disgracing ourselves in front of what William Ernest Henley called 'whatever gods may be' -- to shame ourselves in the eyes of the spirits of past and future generations -- is not a consummation devoutely to be wished. Freedom, then, bears an intimate relat!

ion to religion, and it may well be that the reason we have lost so much of our freedom is that we have lost our religion, or at least have lost the Old Time Religion because of its inadequacies, but have not yet discovered the scientifically real religion that lurks in the shadows of human consciousness, and of which I have written at length (see postings in the Science & Religion section of my webpage).

But the problem in the loss of religion is a larger problem than we may at first appreciate: Not only have we lost our future vision by losing our religion, but the politicians and others who hold power over us have lost it also, and thus have lost the shame that would have made them resign from office had they been caught engaging in the abuses which are now so commonplace for those of their ilk. A century ago a politician's oath of office and the pledge to uphold the Constitution was a bond with God, but now it is just a joke. And in the words of Robert Frost, that has made all the difference.

The Solution

So what, then, is the solution I propose to the tyranny that is raining down on us from Washington and the New World Order? Briefly, it is to reconstitute the militias, but with each member taking an oath to uphold and defend the Constitution against all enemies, and especially traitors, peacefully if possible, but with violence if necessary. This is what I shall -- for lack of better terminology -- call the Militia Solution. The basic idea is that patriots -- people who are willing to put their lives on the line for America, and who are not willing to tolerate the encroachment of the NWO -- should organize local groups openly and train themselves in warfare and guerrilla warfare skills. By doing this -- perfectly legal in most (but not all!) states -- and thru personal interactions, the members will be able to get to know their fellow members, and will get a sense of who can and cannot be trusted. Then, if some event comes down the pike that some of the members feel req!

uires a violent reaction, at that point any subgroup whose members feel they can trust one another can take it upon themselves to do what they feel is required.

The militia itself need be thought of as nothing more than a training ground for potential lone wolves or small groups who follow Louis Beam's 'leaderless resistance' model, and the fact that some members may decide to use their skills to uphold the Constitution would not concern the militia. In particular, what the militia does NOT have is a central command which would involve the entire militia -- rather the decision to act would be up to the individual 'lone wolves' or small groups who felt it was important, and it would -- at least theoretically -- be secret except to those who were involved.

Government Agents

Now the most likely objection to the above scheme is that it would be open to infiltration by government agents. While there is no way to avoid this risk entirely, there are ways that group members can be tested, from stealing or destroying government property to beatings and assassinations of enemies. Keep in mind that an organization cannot be 'nice' when its purpose is to provide violent solutions to problems when nonviolent solutions won't work.

Besides the inability to completely insulate the militias from government agents and other traitors, there is also the problem that militias will simply segue into gangs. While this is a danger, I do not think it is a serious one in view of the type of man who will be attracted to the militia.

Clearly, I do not have all the answers to the problems that the militias could face. But one thing I do know is that unless we start to take a pro-active aggressive stance to protect ourselves, we are going to go down big-time. We cannot wait for the opposition to propose this or that abusive law, or perpetrate this or that outrageous crime. We must prepare ourselves so that these laws and crimes stop happening, and we take back control of our destiny. Right now we have the freedom to create a militia movement and to get our message out as to why it is necessary. Beyond this, in order to successfully complete these tasks, I believe we must develop the state of mind which has helped to preserve the Jews for thousands of years -- chutzpah -- the same quality that Alan Dershowitz praised so highly in his book by that name. Danton, the French revolutionist, had a phrase for it, which General George Patton frequently quoted: Audacity, more audacity, and always audacity! And s!

urely Patton knew what he was talking about, since he was probably the most successful general of WW2. In short, we must be active, not REactive. We KNOW what is going to happen to us if we do not act -- NWO slavery. But we know from the actions of just one man -- Hal Turner -- that we can kick butt and make it hurt. So if some of us will train ourselves as fighters with a clear commitment to the Constitution and American ideals, we can stand up to the NWO and bring back the old America.

Now lest there be any doubt, I do not see the militia as temporary, but rather as a potentially permanent institution to counterbalance government -- a sort of shadow government, if you will, but one which, like a family, passes its skills and ideals on from generation to generation. The reader has no doubt heard the Cubans speak of 'preserving the [Castro] revolution'; and while we may not care for the revolution they are trying to preserve, we should appreciate their insight that revolutions need a conscious effort at preservation if they are to last.

Now in proposing the Militia Solution, I have not said anything that is particularly revolutionary, or that others have not said before. But my solution IS different by its act of putting together several diverse elements. As JBR Yant has remarked, going from the almost-right to the exactly-right is a long, tortuous, tedious process, and the Militia Solution may be looked on as a small yet potentially important move along the road to freedom. Whether it is actually useful depends on whether there are motivated people who will take up the burden of forming militias and seeing that they perform their intended functions. This may well be a difficult task, but it certainly beats shooting up a government office or assassinating some high government muckamuck and getting killed or jailed in the process, as some of my more agitated correspondents seem to want to do. There is not going to be anything easy about taking back our freedom, so if the reader wants to be part of the so!

lution rather than part of the problem, I suggest he either get involved in the Militia Solution, or else propose something better.

Postscript: As I have several times said, I do not believe that generals should be in the trenches -- they are far too useful to serve only as footsoldiers. For this reason, I will not be participating in a militia, should anyone expect me to carry that burden in addition to all the other ones I am currently shouldering. As a general of sorts, I have earned my spurs by making thebirdman.org a going concern for the last 7 years and keeping free speech alive when so many of my correspondents (along with most other whites) are deeply frightened of exercising it themselves -- indeed, as you all very well know, if 'THEY' start sending people to the gulag, I will be one of the first to go. So I urge all you bench-warmers and other would-be revolutionaries to get off your butts and start doing something useful, such as helping to implement the Militia Solution. No one is going to do it for you, so you had better learn how to do it yourself.

PPS: We are currently involved in planning some important outreach activities. The letter at the url below (marked 'Site Ad') is one of several we are contemplating using in some kind of mass email program. Emailing is expensive, and also poses some important legal problems, but we can reach a much wider audience with email. We will need some substantial contributions in order to carry out our program.

And that brings up the small but important matter that it is now time for you, dear reader, to show your gratitude for all the work I have done to make thebirdman.org a valuable information resource and pioneering vehicle in the White Liberation Movement. Accordingly, if you find this site valuable -- as you undoubtedly do if you are reading this message -- then I expect that you would be happy, as an ethical member of our race, to fulfill your obligation for the benefits you have received by contributing to the support of the 6-day-per-week grind that I must put myself thru in order to keep you informed. Thank you in advance for your generosity, and please send all contributions to the following address:

John Bryant

PO Box 66683

St Pete Beach FL 33736-6683

Thank you! And Happy 4th of July!

July 10, 2007

The Honorable Governor Sarah Palin

Email:

Dear Governor Palin,

The Anchorage Association for the Education of Young Children is seeking your availability at their twenty-seventh annual early childhood conference. The conference is scheduled for January 31-February 2, 2008 at the Hilton Anchorage Hotel, in Anchorage, Alaska.

Over 600 professional early childhood educators, child care center staff, family home providers, Head Start staff, K-3 teachers, administrators and representatives of the early childhood community attend this conference. Conference attendees will be attending from all over the state, as well as regionally and nationally.

We are requesting your availability for a 10-15 minute greeting during our morning general session on Thursday, January 31st or Friday, February 1st, 8:15-8:30am. The greeting could state how important Early Childhood professionals are in the lives of young children in their early years, thank parents for valuing the professional development of the individuals who care for their children and understanding the significance of their child's provider/programs closing so that they can attend this conference and welcome the attendees who are from one of the 60 communities outside of Anchorage who are in attendance.

Our attendees are mainly individuals who work directly with children age birth through 8, on a daily basis. This would be an excellent opportunity for you to show your support to the Alaska Early Childhood community.

We would also like to extend an invitation to you to join us for any sessions that your schedule will allow.

If you have any further questions you can contact us at (907) 696-5884 (phone) or e-mail us at MissC5488@aol.com.

We look forward to hearing from you and hope you can join us.

Warmly,

Cecilia Harmon & Christie Holshouser

Conference Coordinators

July 8, 2007

The Honorable Sarah Palin

Governor of Alaska

PO Box 110001

Juneau, AK 99811-0001

Governor Palin:

I am very upset and concerned about this new regulation that OSHA is attempting to put forth regarding new laws in the handling and storage of ammunition and the components used to make ammunition. It seems to me to be a undermining way of making ammunition less available and or more expensive to the citizens that both shoot firearms for competition and sport as well as the hunter that needs it to put meat in the freezer. I think the consequences of such new laws would be devastating to Alaskans in many ways. Please do your best to help us not face these new laws that would greatly affect our livelihood here in Alaska.

Sincerely,

Roland Fein

"One very concerned Alaska"

Sincerely,

Roland Fein

In Re: Girl Scout Troop 120

Dear Honorable Palin:

I am a leader of Troop 120. I have Brownies and Jr. Girl Scouts in my troop. I would like to have you come and speak with my troop and the other Girl Scouts in our community. I think having someone like you as a role model would be wonderful. We are building leaders.

I start my monthly meetings in September through May, from 6:00 p.m. - 7:30 p.m. I would love to set up a time when you are in town to please come and speak with our Girl Scouts in our community.

We look forward meeting you. Thanks for your time.

Sincerely yours,

Ronda Benish Shepard

MESSAGE:

I am writing in disappointment about the Tier 2 Cairbou Hunt. It is because our family works for a living, that we are automatically disqualified from being elgible for a permit. I have lived and hunted in Alaska since 1980. We own property in unit 13 and spend many of our weekend and vacation times there. I feel like I am being punished for working. Our family really enjoys Caibou meat and will miss not even having the oppurtunity to hunt.

My other complaint about this is the other applicants that will lie about their income. I already know someone that has told me he only put down his own income, not the families! This whole application process seems to be "Who can be the BIGGEST LIER"

Also, can you please supply me with some state run programs for the unemployed? I will have to quit my job in order to qualify for this hunt.

Who owns the caribou in Unit 13? Obviously not for the working man.

Scott A. Dobbins

Subject: Budget

Web mail from: Ms. Patricia Dihle

address: 2775 Gold Hill Road Fairbanks AK 99709

MESSAGE:

Dear Governor Palin,

I respect the difficult decisions you must make when deciding what budget cuts to make for the State of Alaska. However, I am very disappointed in your decision to cut the funding for new water tanks at Weller Elementary in Fairbanks.

I was an intern at Weller for the 2006-2007 school year and was able to spend lots of time at that wonderful school. I observed children who would not drink the water because it tasted funny or because it looked funny. The water tanks are very old and truly need to be replaced. Schools should be able to provide safe, clean, and drinkable water to their students. I must admit that I would not drink the water nor would I allow my children to drink the water. Before you fully decide to cut the funding for those water tanks I ask you to have your children drink the water at the school. If you and your children would drink the water on a regular basis then I would concur that the school does not need new water tanks.

Thank you for your time and consideration of my comments.

Respectfully,

Patricia (Trish) Dihle

Governor -

On your schedule that has been updated for tomorrow, Wed., 07.11.07, we have you scheduled for 1:30 p.m. with Jim Bowles, Conoco Phillips and Commissioner Irwin. This will be in your office.

Also, I spoke with Commissioner Irwin in regards to a meeting request that he would like to meet with you sometime Wednesday morning. This would also include Commissioner Galvin. They would like to meet for approximately 10-15 minutes in your office. This request is the same one that Kris has emailed you previously on.

Thanks, Janice

Subject: RE: Governors - Budget cuts & Board of Architects and Engineers - Continuing educaiton issues

Dear Mr. Swank – I am following up with the Commissioner's Office at the Dept. of Commerce, Community & Economic Development. I understand your concem and will see what I can learn about the next steps with the Board of Architects & Engineers and what may be possible to address the issues you are raising. Karen Rehfeld

Subject: Governors - Budget cuts & Board of Architects and Engineers - Continuing educalton issues

BUDGET COMMENTS:

I was very pleased to see the governor's veto of the projects that she did, she could have continued for an additional 300Mil in my opinion (total around 500 to 600Mil).

As a second generation Alaskan (57 years age) and also owning a private engineering firm involved in the construction of projects around Alaska and the world, yes this is a economic negative to my business, however the larger picture is much more important for Alaska if it is ever to develop like I would like.

The State does not and never has had a true financially balanced budget and politics have also negatively affected this issue for the self gains of a few as well as enormous negative ethics issues.

I can only hope that this current administration continues down the same path of fiscal responsibility, ethical practices and true economic development of the state. I would like nothing better than the reduction of the state government while encouraging the expansion of the private sector business areas to include manufacturing etc. which is possible within this state. In short a true development of many none governmental businesses as well as general cities development and growth. I am involved is such areas in many other cities, states and countries around the world and have found these issues extremely troublesome with regards to Alaska and its lack of performance in all such areas.

I love the State but am extremely dissatisfied with its lack of direction involving true economic growth, diversification and its continued expansion of State government and political corruption. Both my private and business interests have been affected by such issues directly (corruption) and as a result I will be filing several law suits against the State of Alaska and some of it's employees within the next 4 months.

CONTINUING EDUCATION COMMENTS:

I have previously sent and voiced my opinion with regards to the Continuing education issue involving the Board of Architects and engineers licensing.
I have attached an email sent to the board by another professional state engineer which also addresses many of my concerns.
Please be aware that the board has received hundreds of such complaints but no doubt has not forwarded them to your office.

This state administrative organization and it's board have also made statements that they have no interest in the views and opinions and desires of the licensed members and are going to proceed forward with such regulations.

This is astounding to me and thus I now feel that I must add the following additional comments to be forward to both the governors office as well as the OMB.

1. THIS RESPONSE BY A STATE OF ALASKA DEPARTMENT, LEGALLY DEMONSTRATES THE BOARDS POSITION AND THE STATES POSITION (THE STATE EMPLOYEES) REGARDLESS OF:

- THE POSITION OF ALL PROFESSIONALLY LICENSED INDIVIDUALS (I BELIEVE THAT WE HAVE A DEMOCRATIC REPRESENTATIVE PROCESS)
- DOES THE BOARD NOT REPRESENT THE LICENSED INDIVIDUALS?
- THE STATE OF ALASKA LEGAL STATUES
- THE STATE OF ALASKA CONSTITUTION
- THE "ENTIRE MANDATE OF THE BOARD" AND NOT "SELECTIVE TWISTING AND MISUSE OF THE MANDATE BY ? "

2. THE QUESTION IS ALSO NOW STARTING TO BE RAISED

- DO WE HAVE CONFLICTS OF INTEREST WITHIN THE BOARD ?
- DO WE HAVE DIRECT OF INDIRECT FINANCIAL GAINS TO EITHER BOARD MEMBERS OR STATE OF ALASKA STAFF, EMPLOYEES OR PUBLIC REPRESENTATION?
- I WILL AGAIN NOTE THAT REQUESTING INDIVIDUALS HAVE NEVER BEEN FURNISH WITH "WHO OR WHICH PARTIES" ARE PUSHING THIS. WHICH PUBLIC REPRESENTATION, STATE DEPARTMENT, ETC. WHO ARE THE LOBBYIST INVOLVED? WHO IS PAYING THE LOBBYISTS?

3. WHAT HISTORICAL JUSTIFICATION EXISTS FOR THIS POLICY OR ACTION BY THE BOARD?

- HOW MANY YEARS OF RECORDS AND ACTUAL COMPLAINTS (BOARD MAINTAINS) EXISTS WITH REGARDS TO PUBLIC COMPLAINTS AGAINST ENGINEERS INVOLVING SUCH ISSUES?
- **THESE RECORDS WILL SHOW AND PROVE THAT THE COMPLAINTS OR ISSUE'S INVOLVED WOULD "NOT" HAVE BEEN PREVENTED BY CONTINUING EDUCATION?**
- **AGAIN ACTUAL COMPLAINTS AND RECORDS WILL SHOW "OTHERWISE" THUS NO BASIS EXISTS.**
- **NOW "PRECONCEIVED THOUGHT PATTERNS BY INDIVIDUALS WILL SAY YES IT WILL (EDUCATION IS ALWAYS A POSITIVE).**
- **THIS IS WHAT THE PARTIES PUSHING THIS ARE HOPING FOR AND THAT THE STATE AND BOARD WILL NOT PERFORM A RESPONSIBLE PROPER REVIEW OF ALL ISSUES INVOLVED.**
- **FACTS ARE THE OPPOSITE. NOTHING WILL CHANGE (SAME PUBLIC COMPLAINTS BASIS WILL BE CONTINUED TO BE FILLED) AND THUS UNCHANGED.**
- **THUS THE PUBLIC "WILL NOT BE PROTECTED AS NOW BEING USED AS PART OF THE BASIS AND LOGIC"**
- **OH BUT HOW $$$$ WILL BE MADE BY SOME INDIVIDUALS AND OUTSIDE ORGANIZATIONS AND PROFESSIONAL SOCIETIES.**

4. AGAIN I AND MOST INDIVIDUALS ARE NOT AGAINST "VOLUNTARY" CE COMPLIANCE AND THUS MAINTAINING OUR INDIVIDUAL DECISIONS AND RIGHTS. THAT IS HAVING THE PROFESSIONAL SOCIETIES PERFORM SUCH AND **NOT THE STATE OF ALASKA**. THIS IS AGAIN WHAT IS DONE FOR ACCOUNTANTS, ATTORNEYS AND DOCTORS. ENGINEERS ARE WITHIN THIS SAME GROUP OF "PROFESSIONALS".

IT IS MY OPINION THAT THESE PROFESSIONAL SOCIETIES HAVE STARTED A NATIONWIDE EFFORT OF LOBBING FOR SUCH AT THE STATE LEVEL TO AGAIN GET THEM $$$$$ THIS BEING THE EASIEST WAY TO ACCOMPLISH THEIR GOAL OF SELF ECONOMIC GAIN WITHOUT TRYING TO PERFORM THIS THEMSELVES WITH THEIR MEMBERS. THIS ALSO MAKES THEM LOOK BETTER AND THUS TRYING TO PORTRAY THAT THEY ARE NOT THE CULPRIT BUT RATHER THE STATE GOVERNMENT. THEIR MAY ALSO BE SOME LOCAL LOBBING AND MANIPULATION BY OTHER GROUPS AS WELL FOR SELF GAINS OR ADVANTAGES.

5. THIS APPEARS DEFINITELY HEADED TO A COURT CHALLENGE AND CIVIL LAWSUIT AGAINST THE STATE OF ALASKA, PARTIES INVOLVED AND ALSO THE OPTION OF FILLING AN INJUNCTION AS

WELL.

- **STATE PARTIES INVOLVED HAVE NOT ADEQUATELY GATHERED THE APPROPRIATE DATA AND PREFORMED ALL ISSUES AND RESPONSIBILITIES AS REQUIRED BY PRIOR OFFICIALS OF THE STATE, STATE LEGAL STATUES AND THE STATE OF ALASKA CONSTITUTION.**

Albert Langdon Swank Jr. P.E.
